GM MESSAGE

Archiwood from birth, has had nothing but pure passion to propel it forward and allow it to achieve all what it has in such a short time, Archiwood in my opinion has come to existence due to two major vacancies within the local market 1. Superior quality 2. innovation and lack of new conventional designs. Looking back at what has enabled us to achieve all this would all pour down to two fundamental aspects 1st No compromises on our quality and standards regardless of the costs associated with such a decision 2nd delving further and seeking new and untried ideas along with designs when it comes to woodwork.

Archiwood's mission is to raise the standards when it comes to woodwork in Qatar and give birth to new and challenging ideas that we hope would change the entire conception of what carpentry truly is within the region. Our promise is to always deliver on what has brought us this far which are quality, uniqueness and the relentless effort on focusing where others fail to. the satisfaction of our customers is our priority, and I believe this what has enabled Archiwood to distinct itself from other competitors and create a name for itself in this market. Being proud is an understatement for what Archiwood has been able and still achieves on a day-to-day basis. This journey while indeed may still be in its beginning, it has proven that Qatar demands innovative, unique ideas, designs and execution instead of mass-produced woodwork.

we hope to see you soon at our showroom. visit us and experience wood in Archi's way.

Adam Murtada

STEP 07
Delivery

STEP 06
Manufacturing

STEP 05
Project Production Schedule

STEP 09
1-Year Warranty Certificate Issuance

STEP 10
Client Meeting & Surveying

A photograph of a carpenter in a yellow polo shirt with the 'ARCHIWOOD CARPENTRY' logo on the back, working at a white metal workbench in a factory. The workbench is cluttered with tools, including a blue power sander, a hammer, a tape measure, and a spray bottle. In the background, two other workers in white shirts with the same logo are working on a large wooden panel. The factory floor is filled with various wooden components and machinery.

SERVICES

The image shows several hand-drawn architectural sketches on a dark, textured surface. One sketch depicts a table with a 45-degree angle and a 40-degree angle, with a width of 180 mm and a length of 146 mm. Another sketch shows a table with a 40-degree angle, a weight of 8-12 kg, and a length of 176-264 mm. A third sketch shows a table with a 40-degree angle, a weight of 8-12 kg, a length of 176-264 mm, and a height of 330 mm. A fourth sketch shows a table with a 40-degree angle, a weight of 8-12 kg, a length of 176-264 mm, a height of 330 mm, and a width of 400 mm. A fifth sketch shows a table with a 40-degree angle, a weight of 8-12 kg, a length of 176-264 mm, a height of 330 mm, a width of 400 mm, and a depth of 480 mm. The sketches are drawn with black lines and include various dimensions and angles. The text 'DESIGNING' is overlaid on the sketches in a bold, white, sans-serif font.

DESIGNING

Complete Interior and exterior Design. Layout renders and samples. Franchising format and Technical Handbook where space, material, dimension and quality requisites are standardized

PROJECT CONSULTATION

Full study and Estimation of the scope of work. Meeting client's budget and financing accordingly. BOQ drafting, Comprehensive study and individualistic recommendation of best suited material and wood work solutions for projects. Mock-ups and prototypes provision.

A photograph of a carpenter in a yellow shirt working at a workbench in a factory. The background shows other workers and large wooden panels. The text 'CARPENTRY' is overlaid on the image.

CARPENTRY

Our carpenters experience and expertise in combination with the highest end machinery situated in our 3000 sqft factory ensures that we deliver the reliability and quality our clients require. We hire best of tradesmen who have the ability to produce first class joinery work covering every aspect from standard to high end furniture material

A man in a white polo shirt is painting a wooden surface. He is holding a paintbrush and looking down at his work. The background shows a wall of vertical wooden planks.

PAINTING

Our painters are highly experienced with each having minimum 5 years experience and with +300 paint color variant available in stock all imported from the top manufacturers within Europe to ensure we deliver on the quality expected. you won't need to look elsewhere for options and quality

All Archiwood's paint work is done in controlled environment in high end ovens specially designed and built to meet our needs and quality standards

POLISHING

The importance of effective and quality polishing on the overall look of our woodwork cannot be stressed enough. We therefore only purchase the best out there which in turn allows us to offer our clients high-quality natural wood grain effect interior polishing services

A photograph of a warehouse interior. In the foreground, a blue forklift is partially visible, facing right. The background is filled with tall metal shelving units. The shelves are stacked with numerous wooden pallets, many of which are loaded with large sheets of wood or plywood. The lighting is somewhat dim, creating a professional and industrial atmosphere.

DELIVERY

Our delivery covers all of Qatar. Flexible timing & Highly trained personals to handle the goods with care.

ELECTRICAL FITTING & FIXTURES

Complete Interior and exterior Design. Layout renders and samples. Franchising format and Technical Handbook where space, material, dimension and quality requisites are standardized

ARCHIWOOD
CARPENTRY

ASSEMBLY & REPAIR

We offer our clients full assembly and repair of finished furniture and woodwork this is particularly useful for clients who. Looks for a very fast and efficient repairs and assembly. Wants to ensure their goods are being handled by professional carpenters.

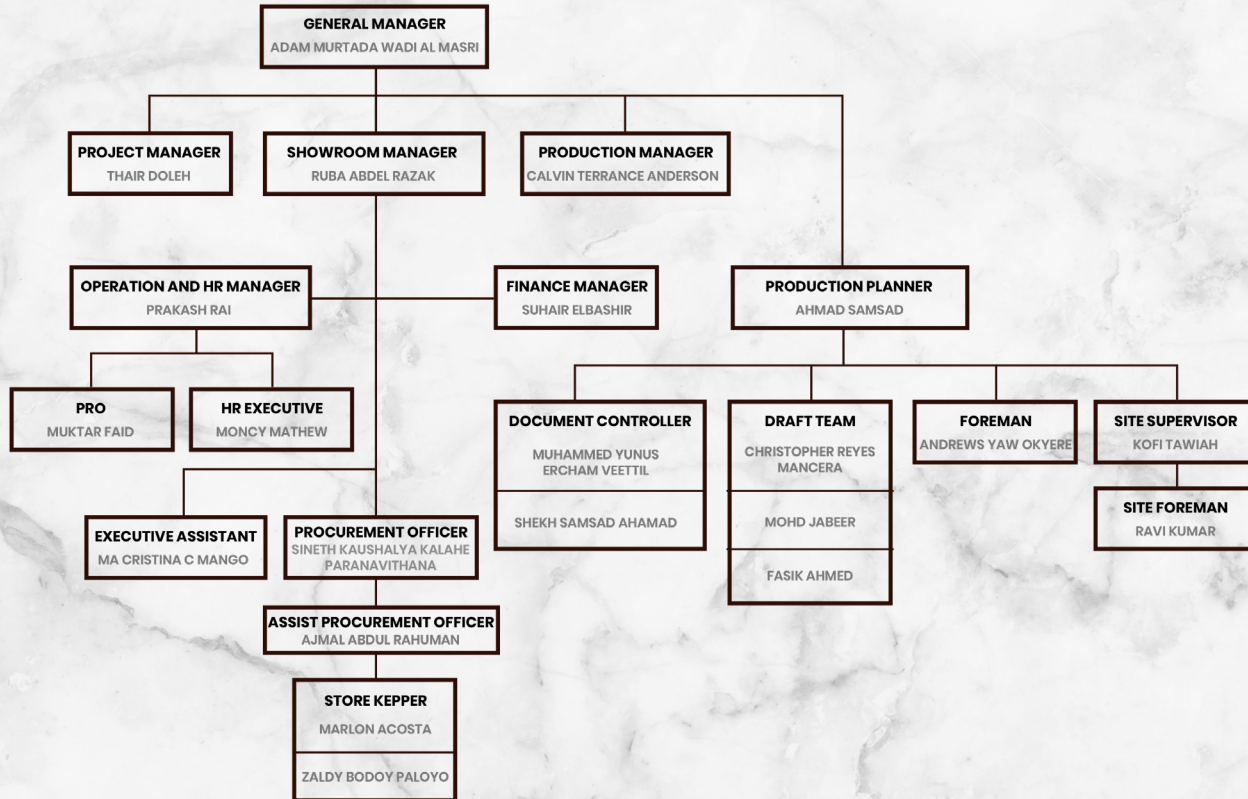

HIGH END MACHINERY ACCESS & WORK PROVISION

Archiwood has 48 top of the line machines with more than 12 professionally certified operators. At Archiwood we ensure that all our machinery is new with none exceeding 5 years of operation and fully functional to ensure high quality, safety and efficiency.

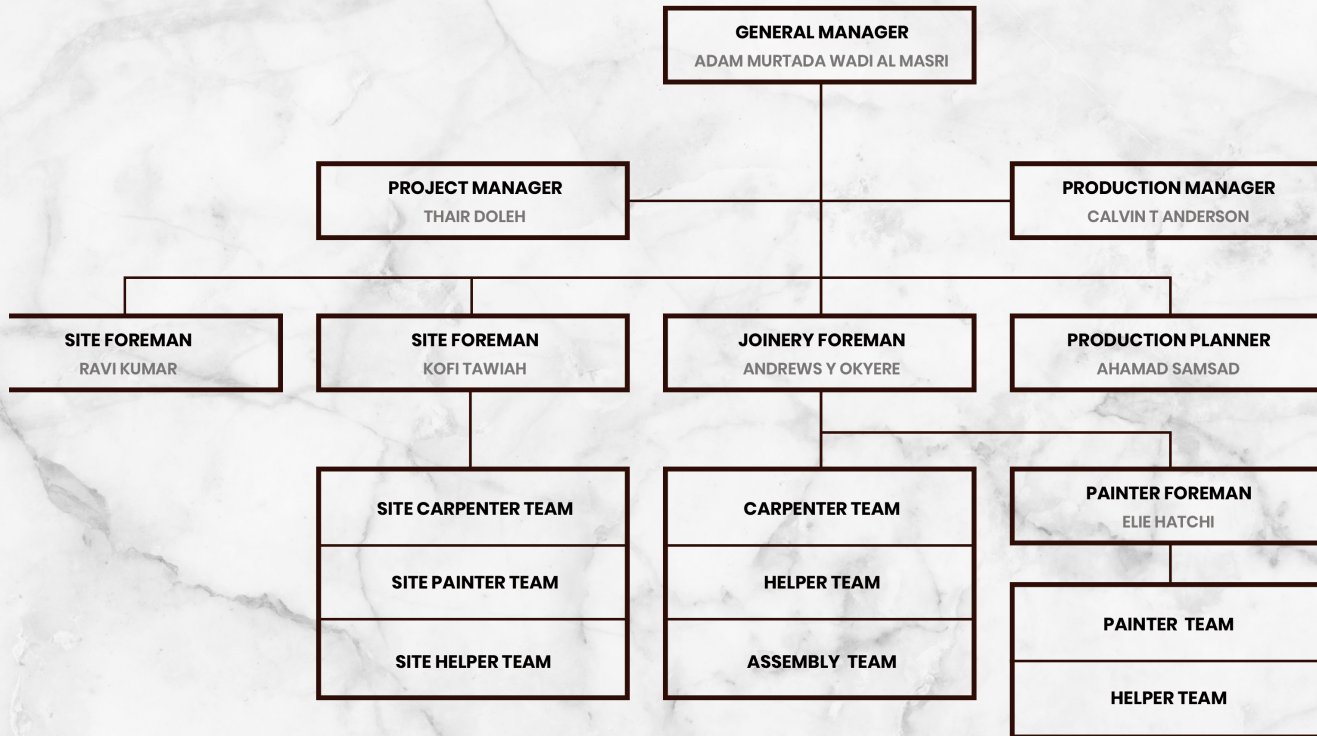

Our intention is to be a head of the curve, when it comes to its innovation, capabilities and machinery its therefor we possess machines that are only available at extremely few carpentries such as the Felder 5 axis CNC machine.

Archiwood is a market leader and an innovative carpentry in its capabilities, this is most evident from the requests made by local competitors to help and provide machinery access along with the know-how to execute on hand projects.
